

Rudendru Rahul

Delhi | +91 8810609657 | rudendru0310@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

Proficient Full Stack Developer in scalable, secure, and optimized development of applications.

SKILLS

JavaScript | TypeScript | React.js | Next.js | Node.js | Express.js | AWS | Postgresql | MongoDB | HTML | TailWind CSS | Python | FastApi | Django | Docker | Git | CI/CD | WebRTC | Debugging Tools.

EXPERIENCE

Full Stack Developer - [OAK-Network](#) | Full-Time

Apr-24-Dec-25

- Architected, secured, and versioned high-throughput RESTful APIs using Node.js/Express and FastAPI, implementing secure role-based access control (RBAC) and Microsoft Entra ID authentication.
- Drove significant performance improvements by optimizing PostgreSQL queries and implementing advanced, multi-tier caching strategies (e.g., Redis) to handle high-throughput demands.
- Enforced data integrity and security across all API endpoints by implementing robust input validation, data sanitization, and structured logging practices.
- Optimized data retrieval and system responsiveness for large datasets by implementing efficient server-side pagination and filtering mechanisms across core application resources.
- Enhanced front-end performance and user experience, reducing render times by 40% through React optimization techniques, implementing responsive UI design, and managing complex application state with Redux Toolkit, including role-based access controls and client-side routing.

Full Stack Developer - [Apna-Cam](#) | Full-Time

Apr-23-Mar-24

- Developed and optimized responsive user interfaces using React.js, ensuring cross-browser compatibility and a seamless user experience across different devices.
- Managed complex application state using Redux Toolkit, implementing efficient data flow patterns to improve application maintainability and scalability.
- Identified and resolved frontend performance bottlenecks, reducing initial load times and minimizing unnecessary re-renders for a more responsive UI.

PROJECTS

E-Commerce

- Full-stack e-commerce platform using React.js, Express, and MySQL, featuring a comprehensive product catalog, shopping cart, and secure user authentication via Google OAuth.
- Developed a robust Order Management System (OMS) and integrated a Payment Gateway, supported by an Inventory Management system and an admin dashboard for sales analytics and managing features like discount codes, order tracking, and email notifications.
- Implemented core functionalities, including user profiles, wishlist, and an efficient order management workflow to ensure a scalable and secure user experience.

Employee Management portal

[ProdLink](#)

- End-to-end Employee Portal with authentication, role-based access, onboarding, attendance, leave, payroll, and announcements.
- Secure & scalable backend using Node.js, Express, MongoDB Atlas, Redis queues, and deployed on Render.
- Robust notification system powered by SendGrid + BullMQ, delivering async email alerts with retry/backoff.
- Modern frontend built with ReactJS, Context API, TailwindCSS, deployed seamlessly on Vercel for responsive UX.

AI resume analyzer and chat

[ProdLink](#)

- **Streamlined Career Tools:** Provides ATS scoring, skill extraction, and tailored improvement suggestions, helping candidates quickly identify gaps and strengthen resumes for better recruiter visibility.
- **Precise JD Matching:** Aligns resumes with job descriptions to calculate match scores, highlight overlapping skills, and surface missing ones—reducing guesswork in applications.
- **Interview Readiness:** Generates targeted technical, project, and managerial questions from resumes, preparing candidates for real-world interview scenarios.
- **Efficient AI + Secure Infrastructure:** Combines Gemini with optimized prompts, vector search, and exponential backoff for cost-effective, resilient performance, while ensuring secure authentication with hashed credentials in MongoDB.

EDUCATION

Bachelor of Technology(Electrical Engineering)

Aug-19-May-23

Netaji Subhas University of Technology (NSUT), Delhi, India
